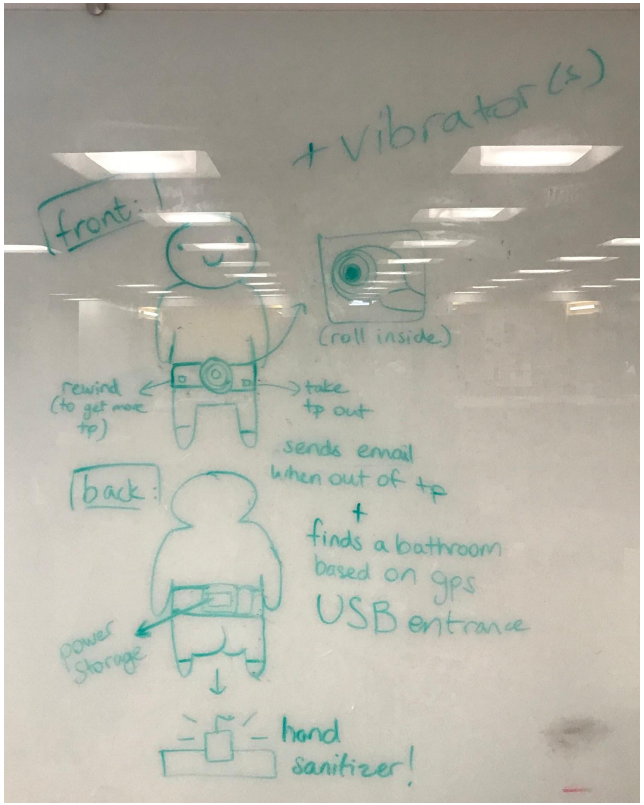
Ideas!!

Manhattan Team: Yifan Jiang, Ziyao Zhu, Fiona Au,
Alex Pineda, Nilsu Duran

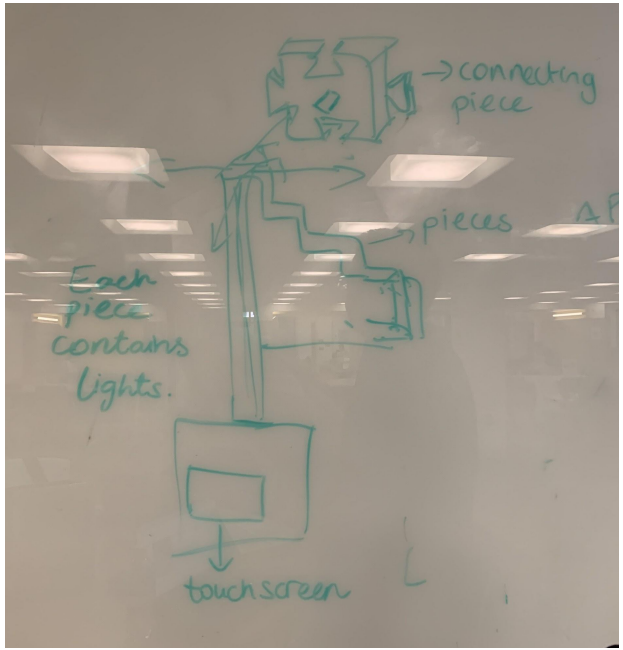
Idea #1: Toilet Paper Belt

- Sends text or email to notify of toilet paper running out
- Button 1 to extract toilet paper, Button 2 to put excess toilet paper back in
- Also includes hand sanitizer
- App to find nearest toilet
- Wireless charging



Idea #2: Digital Bonsai Tree

- Physical puzzle assembled to make the branches, leaves, etc. LIKE LEGOS!
- Humidifier
- A screen that control the humidifier and apply the stored settings
- An app for detailed settings



Idea #3: Digital Alcohol Tracker Cup

- Change color depending on alcohol content
- Track how much alcohol has been consumed throughout the night
- Come in variety of sizes (shot glass, cup, flask, etc.)
- Warns the user if blood alcohol concentration exceeds checkpoints of:
  - 0.03% BAC (mild euphoria)
  - 0.06% (disinhibition)
  - 0.1% (nausea)
  - 0.2% (loss of consciousness)

Idea #4: Digital Tie Machine

- Comes with machine and blank tie canvas
- Design tie design on app
- Print out design with machine
- Wear tie
- Insert tie back into machine to turn into blank canvas again
- Design and print again!
